

PSA #1 (General spot to be used throughout the year)

An educational system isn't worth much if it teaches young people how to make a living but doesn't teach them how to live. (slight pause) High school activities are the "other half of education" where lessons in living are an everyday occurrence.

Self discipline, the ability to work with others, fair play; these are the lessons that high school activities are made of.

PSA #2 (General spot to be used throughout the year)

Excitement, thrills, suspense are all available during the season as Idaho high school athletes are showcased all across this great state. Boys' and girls athletic programs provide the best in entertainment, sportsmanship, and community involvement.

Don't miss any of them! Support your teams, schools and community by attending these exciting events.
